

*WHERE QUALITY MEETS
SECURITY, WE FENCE.*

**JHANVI
ENTERPRISES**

JHANVI ENTERPRISES

India is a global giant which is adopting and dominating many western cultures. Among which the use of chain link and fence products is a growing awareness among many wise Indians. If you are in the list of the many wise Indians, choosing chain link and fence products for your periphery embankment is a benchmark in your decisions. Saving money and time rather than a wall is an ideal conclusion. When this has been made clear, now the uncertainty lies in choosing the fence providers who can give you peace of mind and ultimate satisfaction with his products.

FENCING SOLUTIONS FOR EVERY VISION

OUR PRODUCTS

BRC FENCE

Modern aesthetic solution for all your demarcation needs. It adds an upmarket look to your property over traditional woven fence solutions.

ELECTRIC FENCE

Active perimeter security system which gives a non lethal but powerful shock to intruders and also generates local and remote zone wise audio-visual alarm in case of climbing or cutting attempts.

GATES

Swing and Sliding Gates with automation which are ideal choice for industrial, commercial and few residential applications.

STRUCTURAL STEEL

Complete execution cycle—from drawing coordination and fabrication to site assembly and erection—with focus on dimensional accuracy, structural integrity, quality workmanship and safe execution.

BRC FENCE

As the times have changed, so have our lifestyles, habitats, architectural styles, design sensibility and the expectations of the consumers. To match pace with such an immersive shift, there existed a need to change the way we build our security systems. A need to be more technology savvy and more creative. In terms of not just strengthening our systems but also in enhancing their design quality.

- **Superior Strength:** Reinforced with steel bars, our BRC fences offer superior strength and structural integrity, enhancing security levels.
- **Customization Options:** Choose from a range of heights, colors, and finishes to tailor your BRC fence to match your specific requirements and aesthetic preferences.
- **Easy Installation:** Designed for hassle-free installation, our BRC fencing systems are engineered to streamline the process, saving you time and effort.
- **Cost-Effective:** With its long lifespan and low maintenance needs, investing in BRC fencing proves to be a cost-effective security solution over time.

Bell Post Fence

This is a modular weldmesh fencing system that combines affordability with elegance and durability.

ELEGANT

The distinctive mesh pattern of 200 x 50 mm adds elegance & aesthetics to the perimeter

EASY INSTALLATION

The panel can be quickly easily fixed into the unique post profile providing a strong fit.

NO FIXTURES

The unique post profile of UNICO prima eliminates the need for any fixing components or welding & fabrication onsite.

Anti Climb

This is strongwelded mesh system having anti climb & anti cut features along with high visibility making it ideal for medium and high security.

ANTI CLIMB

The Mesh size of 76.2 X 12.7 mm makes it difficult to grip thus prohibiting any chances of climbing the fence.

ANTI CUT The dense mesh inhibits ingress of commonly available cutting tools like pliers which makes the fence difficult to cut

GOOD VISIBILITY

The fence although being so dense gives clear visibility so that it is CCTV friendly exposing the intruders.

H-Post Fence

The H-post combines
**Modularity, Aesthetics &
Customization** thereby offering a
complete perimeter security solution.

UNIVERSAL POST

The H post allows to connect any panel to the post without the need of any special fixing arrangement.

SMART CLAMPS

The smart U clamps eliminate the need for an extra post for corner installations.

MODULAR FENCE ADD ONS

Comes in multiple fence add on options like wall spikes, razor blade tapes, concertina & crank panel.

K-4 rated fence

The K-4 rated fence is a high-security perimeter protection solution designed to withstand vehicular impact in critical infrastructure, defense facilities, data centers, and sensitive areas. It complies with ASTM F2656 or DOS SD-STD-02.01 standards, capable of stopping a 15,000 lb (6,800 kg) vehicle traveling at 30 mph (48 km/h).

Gate Motors

D5-EVO – DOMESTIC & LIGHT-INDUSTRIAL SLIDING GATE MOTOR

- The evolution of the tried and tested D5 500kg gate motor for domestic and light-industrial applications.
- Incorporating battery backup you can bank on, potent push force and an intelligent LCD controller for easy setup, not to mention a plethora of features all tailor-made for the ultimate in security and convenience, the CENTURION D5-Evo is the apex predator of gate motors – it simply has no competition and no equal.

STRUCTURAL STEEL

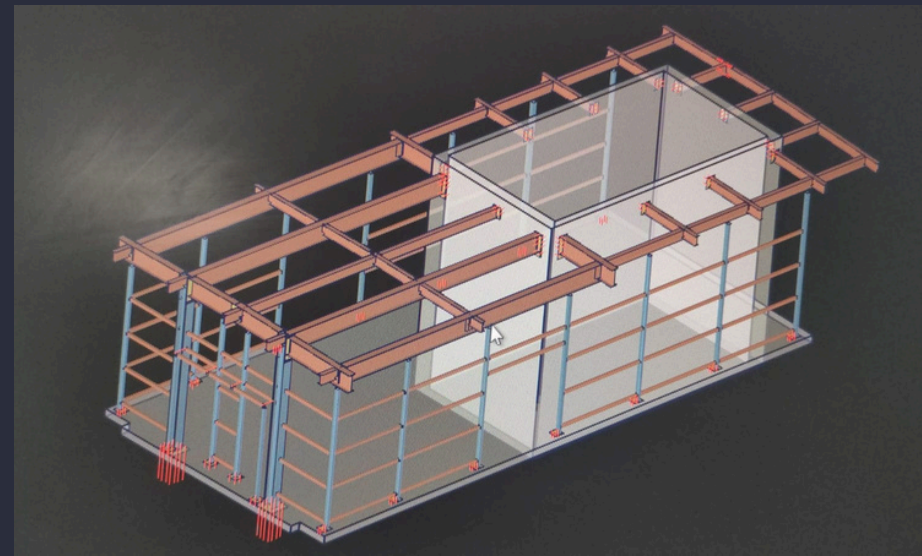

FABRICATION & ERECTION

Jhanvi Enterprises provides structural steel fabrication and erection solutions for industrial, commercial and infrastructure projects. Our capabilities cover the complete execution cycle—from drawing coordination and fabrication to site assembly and erection—with focus on dimensional accuracy, structural integrity, quality workmanship and safe execution.

OUR CAPABILITIES

- Structural Steel Fabrication
- Structural Steel Erection
- Columns, Beams & Supporting Structures
- Industrial Steel Structures
- Equipment & Utility Support Structures
- Platforms & Structural Frames
- Site Modification & Installation
- Bolted & Welded Connections
- Surface Preparation & Protective Coatings
- Project-Specific Custom Fabrication

PRECAST JERSEY BARRIERS

ROBUST • MODULAR • HIGH-STRENGTH

Jhanvi Enterprises provides precast concrete Jersey Barrier solutions for industrial facilities, construction sites, data centers, warehouses and infrastructure projects.

Designed for rapid deployment and long-term outdoor use, our Jersey Barriers can be manufactured and installed as standalone segregation systems or integrated with PPGI sheet fencing and other perimeter security solutions.

KEY FEATURES

- **Precast Construction**
- **Factory-cast for consistent dimensions, finish and quality.**
- **Heavy-Duty Solution**
- **Robust concrete construction suitable for demanding industrial and infrastructure environments.**
- **Quick Installation**
- **Precast design enables faster site installation compared with conventional cast-in-situ systems.**
- **Modular Configuration**
- **Individual barriers can be arranged to suit different site layouts and perimeter requirements.**
- **Integrated Fencing Solution**
- **Can be engineered to support PPGI fencing and other project-specific perimeter systems.**
